Strategy and Operations 171

1. Which of the following are ways that regulations differ from ethical frameworks? (Select two.)

1 / 1 point

☒ Regulations provide a clear basis for potential litigation.

✓ **Correct**  
This is a typical aspect of regulations.

☐ Regulations are often industry led.

☒ Regulations have legal enforcement behind them.

✓ **Correct**  
This is a typical aspect of regulations.

☐ Regulations are flexible in their implementation.

2. Your business handles the personal data of California residents. Which of the following regulations would enable a resident to request that their data be deleted from your company's files?

1 / 1 point

☐ PCI DSS

☐ COPPA

☒ CCPA

☐ OECD Privacy Guidelines

✓ **Correct**  
The California Consumer Privacy Act (CCPA) includes provisions for enabling residents to request that their personal information be deleted.

3. Which of the following does the Brazilian General Data Protection Act (LGPD) mandate? (Select two.)

1 / 1 point

- ☐ Data protection audits
- ☒ Data protection officers

✓ **Correct**  
LGPD sets requirements for appointing data protection officers.

- ☐ Data protection analysts
- ☒ Data protection impact assessments

✓ **Correct**  
LGPD sets requirements for conducting this type of impact assessment.

4. Which of the following is a standard or regulation that focuses on ensuring the implementation of strong cybersecurity techniques like network security and cryptography to protect data?

1 / 1 point

- ☐ PIPEDA
- ☐ POPI
- ☒ PCI DSS
- ☐ FERPA

✓ **Correct**  
PCI DSS sets standards for securing payment card processing, including a focus on network security and cryptography.

5. Which of the following are requirements set forth by the Biometric Information Privacy Act (BIPA)? (Select two.)

1 / 1 point

- ☒ Organizations must obtain consent from individuals regarding the collection and use of biometric data.

✓ **Correct**  
This is one of the main requirements set forth by BIPA to secure biometric data.

- ☒ Organizations must destroy biometric data in a timely fashion.

✓ **Correct**  
This is one of the main requirements set forth by BIPA to secure biometric data.

- ☐ Organizations must store biometric data in local, on-premises databases.
- ☐ Organizations must not transmit biometric data across an unsecured network like the Internet.

6. The Children's Online Privacy Protection Act (COPPA) safeguards the privacy of which age group's personal

1 / 1 point

information?

- ☐ Anyone between 13 and 18 years old
- ☒ Anyone under 13 years old
- ☐ Anyone between 5 and 13 years old
- ☐ Anyone under 18 years old

**Correct**

COPPA applies to anyone under 13 years of age.

7. Which of the following are advantages to adopting standards frameworks like ISO 27000? (Select two.)

1 / 1 point

- ☒ Formal certification processes that provide competitive advantage

**Correct**

Standards frameworks typically enable organizations to certify that they align with a standard, which can provide competitive advantages to those organizations.

- ☐ Regulatory weight and legal enforcement
- ☐ Technology-specific focus and precise implementation instructions
- ☒ International support, recognition, and involvement

**Correct**

Standards frameworks promote these ideals among organizations in an industry.

8. Which of the following is a notable aspect of the Personal Information Protection and Electronic Documents Act (PIPEDA) when compared to similar laws and regulations?

1 / 1 point

- ☒ A stipulation to continue providing service even if data usage is denied
- ☐ Its exclusive focus on a single domain rather than a breadth of domains
- ☐ Its nationwide scope and specific national focus
- ☐ The early date of its inauguration

**Correct**

This is a unique aspect of PIPEDA as compared to other data privacy laws like GDPR.

9. Which of the following resources does the National Institute of Standards and Technology (NIST) provide to organizations?

1 / 1 point

- ☐ Industrial configurations
- ☒ Reference materials
- ☐ Measurement technologies

☐ Security tools

**Correct**

NIST is primarily a standards body that provides reference materials to organizations.

10. Which of the following ethical domains does the IEEE 7000 series explore? (Select two.)

1 / 1 point

☐ Personnel safety

☒ Emulated empathy

**Correct**

IEEE 7000 provides guidance in general areas like transparency and accountability, but it also explores more specialized areas like emulated empathy.

☒ Machine-readable privacy terms

**Correct**

IEEE 7000 provides guidance in general areas like transparency and accountability, but it also explores more specialized areas like machine-readable privacy terms.

☐ Fair competition
