

Annotated Bibliography Assignment

Directions:

For this assignment, you will practice writing a short annotated bibliography. You can choose one of the following topics and then search for at least two academic sources related to that topic. These are broad, academic topics, so you'll also be practicing creating effective search terms and searching for academic sources.

Practice Topics (Choose one):

Urban crime
Alzheimer's disease
Animal rights
International trade
Alternative energy sources

Child nutrition
Food allergies
Internet security
Adult literacy
Interest Rates

In the bibliography, you need to do all of the following for each source:

- Use MLA format
- Give the source information
- Summarize the source
- Evaluate the reliability of the source
- Write only one paragraph per source
- Make sure each paragraph has 7-12 sentences

Because you are not actually writing a research paper in this class, you do not need to address the usefulness of the source.

Check the format of the Sample Bibliography Assignment that you have been provided and follow that example.
