Question **11**

Not yet answered

Marked out of 1.00

Which statements are true about the following code?

```
1: interface Printable {
2:    public abstract void print();
3: }
4: public interface Formattable extends Printable {
5:    public void format();
6: }
```

Select one:

○ a. A class that implements Printable must override the print() method.

○ b. A class that implements Formattable only inherits the format() method.

● c. A class that implements Formattable inherits both the print() and format() methods.

○ d. An interface cannot extend another interface.

Which of the following statements can be inserted in the ___ line so that the code will compile successfully?

```java
public interface Printable {}
public class Rectangle implements Printable {
    public static void main(String[] args) {
        _____  frog = new RoundRectangle();
    }
}

public class RedRoundRectangle extends Rectangle {}
public class RoundRectangle extends Rectangle {}
```

Select one or more:

- ☑ a. RoundRectangle
- ☑ b. Printable
- ☑ c. Rectangle
- ☐ d. RedRoundRectangle
