Question 2
Answer saved
Marked out of 1.00
⚑ Flag question

Assume that all library files are imported, the page is run on the localhost, port:8080, the web name is "MyWeb"

consider the code in the file "index.jsp"

```
...
<c:url var="test" value="search.jsp">
   <c:param name="key" value="plant"/>
</c:url>

<a href="${test}"> click here</a>

....
```

What will be displayed when the user clicks the hot pot "click here"?
[1] "http://localhost/MyWeb/search.jsp&key=plant"
[2] "http://localhost:8080/MyWeb/search.jsp&key=plant"
[3] "http://localhost/MyWeb/search.jsp?key=plant"
[4] "http://localhost:8080/MyWeb/search.jsp?key=plant"

- ○ a. 3
- ○ b. 1
- ● c. 4
- ○ d. 2

Clear my choice

Question 3
Answer saved
Marked out of 1.00
⚑ Flag question

Consider the code:
```
...
String myvalue=request.getParameter("txtname");
Select * From Registration Where uName = ?
```

What can be used to set the myvalue variable to "?" ?

- ○ a. Using Connection
- ○ b. using Statement
- ● c. using the PrepareStatement
- ○ d. Using ResultSet

Clear my choice

Question 4
Answer saved
Marked out of 1.00
⚑ Flag question

Consider some statements:
[1] Dynamically access incoming requests from the user before the servlet processes the request

[3] Intercept the requests and response that flow between a client and a Servlet/JSP
[4] Was introduced as a Web component in Java servlet specification version 2.3
What these statements are saying about?

- ○ a. container
- ○ b. web server
- ○ c. back end services
- ● d. filter

Clear my choice

Question 5
Answer saved
Marked out of 1.00
⚑ Flag question

Consider the code:
```
<form action="target" method="post">
  <input type="text" value="testing" name="txt"/>
  <input type="submit" name="btn" value="search"/>
</form>
```
What value will be sent to the resource "target" after submitting?

- ○ a. nothing is sent
- ○ b. The text "testing" is sent
- ● c. Both "testing" and "search" are sent
- ○ d. The text "search" is sent

Clear my choice

Question 6
Answer saved
Marked out of 1.00
⚑ Flag question

How does remain the Request Object's life longer?

- ○ a.   Using Attribute of Request Object
- ○ b.   Using UrlRewrting combining sendRedirect method of Response Object
- ○ c.   None of the others
- ● d.   Using Request Dispatcher

Clear my choice

Question 7
Answer saved
Marked out of 1.00
⚑ Flag question

What is Interceptor in Struts 2 Framework?

- ● a.   None of the others
- ○ b.   It is another Filter that receive information from Main Filter (Dispatch Filter)
- ○ c.   It is a Filter that applied to application when the user uses browser send request to container

Clear my choice

Question 8
Not yet answered
Marked out of 1.00
⚑ Flag question

What is difference about resource response mission between Request Dispatcher and Filter?

- ○ a.   The first resource that is forwarded information will response in Request Dispatcher mechanism. The last resources that is applied filter will be response in Filter
- ○ b.   The first resource that is forwarded information will response in Request Dispatcher mechanism. The last Filter that is apply to resources will be response in Filter
- ○ c.   None of the others
- ○ d.   The last resource that is forwarded information will response in Request Dispatcher. The first Filter that is apply to resources will be response in Filter

Question 9
Answer saved
Marked out of 1.00
⚑ Flag question

Consider the code in the file "web.xml":

```
<web-app>
....
<filter>
    <filter-name>myfilter</filter-name>
    <filter-class>vanttn.filter.myfilter</filter-class>
</filter>
  <filter-mapping>
    <filter-name>myfilter</filter-name>
    <url-pattern>/servlet1</url-pattern>
  </filter-mapping>
    ....
</web-app>
```

Choose the right statement.

[1] Intercept the requests and response that flow between a client and the servlet "servlet1".

[2] Supports dynamic modification of requests between a client and the servlet "servlet1"

[3] only apply the filter "myfilter" to all servlets in the web app exception the servlet "servlet1"

[4] can not apply the filter "myfilter" by using "web.xml"

- ○ a.   4
- ○ b.   3
- ● c.   1
- ○ d.   2
